TMBI Junior Day - Wednesday 4 November 2026

Salle de Conférence, Pavillon Baudot, CHU Purpan, Toulouse

https://tmbi.univ-tlse3.fr/

TIME	LAB	SPEAKER	PRESENTATION
09:30-09:45	TMBI	Chloé Farrer · Lionel Dahan	TMBI presentation
Morning session I - 09:45-10:45			
09:45-10:00	CerCo	Vincent Dornier	A distributed and hierarchical organization of concept cells in the human declarative memory system
10:00-10:15	ISAE	Quentin Chenot	The MPH project: advancing our understanding of human cognitive performance
10:15-10:30	CLLE	Raphaël Kunstler	Did Milgram replicate Eichmann?
10:30-10:45	LNPL	Salma Trad	The influence of emotions on L2 reading comprehension
10:45-11:15			Coffee break
Morning session II - 11:15-12:15			
11:15-11:30	CerCo	Costanza Cerrano	Entrainment echoes in cerebellar electroencephalography (cEEG)
11:30-11:45	CLLE	Joy Sineux	Cognitive determinants of dysgraphia in Parkinson's disease and the effect of musical sonification on its rehabilitation
11:45-12:00	CRCA	Ines Cathala	From the neurobiology of social learning to the cultural transmission of mate preference in Drosophila melanogaster
12:00-12:15	ToNIC	Sarah Maso	*To be announced*
12:15-13:30			Lunch break
13:30-13:40	Toulouse Cog Sci associations		
Afternoon session I - 13:40-14:40			
13:40-13:55	CerCo	Antoine Grimaldi	Precision imbalance vs. circular inference: a normative model comparison for psychosis
13:55-14:10	CERPPS	Juliette Deshayes	From images to emotions: understanding the role of mental imagery and alexithymia in emotion recognition in autistic people
14:10-14:25	LNPL	Luisa Fernanda Caicedo Beltran	Do the languages we speak shape what we see? Spanish progressive forms and event perception in multilingual learners
14:25-14:40	CLLE	Coline Ott	The Impact of Negative Emotions on Performance and Conflict Detection in Analytic Reasoning Tasks
14:40-15:00			Coffee break
Afternoon session II - 15:00-16:00			
15:00-15:15	CRCA	Coline Monchanin	Chronic radioactive exposure in Fukushima impairs cognition in two pollinator species
15:15-15:30	ToNIC	Sarah Seiwert	Does subjective evaluation of the learning situation contribute to perceptual-motor procedural learning?
15:30-15:45	ISAE	Jules Gomes	Subtle flicker, informative brain: textured visual stimulation as a window on cognitive load
15:45-16:00	ToNIC	Lou Zonca	Mapping the brain-border neuroimmune axis in human coma
